Proposal No. 4: Determination of Remuneration for Granting Restricted Stock to Executive Directors

The amount of remuneration, etc. for Directors of the Company was approved at the 59th Ordinary General Shareholders Meeting held on June 29, 2006, at an amount not exceeding 860 million yen per year. For the purpose of providing Directors, including Directors to be appointed in the future with incentives to continuously improve the Company's corporate value and to further promote value sharing with shareholders, the Company proposes to newly provide remuneration for granting restricted stock to Directors of the Company (hereinafter referred to as the "Eligible Directors"), separately from the above remuneration framework.

The remuneration to be provided for granting restricted stock under this proposal shall be monetary remuneration claims, and the total amount shall be within 150 million yen per year as an amount considered to be appropriate based on the above purpose.

The details of the allocation to each Director shall be decided by the Board of Directors after deliberation by the Remuneration Advisory Committee, whose majority of the members are outside directors and outside corporate auditors who are Independent Officers.

Currently, there are twelve (12) Directors of the Company (including four (4) Outside Directors), and if Proposal No. 2 is approved as originally proposed, the number and breakdown of Directors will remain the same, and the number of the Eligible Directors will be eight (8).

Based on the resolution of the Board of Directors, the Eligible Directors deliver all such monetary remuneration claims provided by this proposal as property contributed in kind for the issuance or disposal of shares of common stock of the Company. The total number of shares of common stock of the Company to be issued or disposed pursuant to this proposal shall not exceed 50,000 shares per year. (However, after the date on which this proposal is approved, if a reverse stock split or stock split (including gratis allotment of common stock of the Company) of the common stock of the Company is implemented and the adjustment of the total number of common stock of the Company issued or disposed as restricted stock is required, the above maximum number shall be adjusted within a reasonable range). The amount to be paid per share shall be determined by the Board of Directors based on the closing price of the Company's common stock on the Tokyo Stock Exchange on the business day immediately preceding the date of each Board of Directors resolution (or the closing price of the immediately preceding business day if no transactions were made on that date), to the extent not particularly favorable to the Eligible Directors. For the issuance or disposal of shares of common stock of the Company by this proposal, the Company and the Eligible Directors shall enter into a restricted stock allotment agreement (hereinafter the "Allotment Agreement") that includes the following details.

- (1) With respect to the shares of common stock of the Company allotted under the Allotment Agreement (hereinafter the "Allotted Shares"), the Eligible Directors shall not transfer, create a security interest on, or otherwise dispose of the Allotted Shares (hereinafter the "Transfer Restriction") for a period from the date of delivery of the restricted stock to the date on which the Eligible Director forfeits his or her position as Director of the Company or other position determined by the Board of Directors of the Company (hereinafter the "Transfer Restriction Period").
- (2) If the Eligible Director forfeits any of the positions specified in (1) above before the expiration of the period specified by the Board of Directors of the Company (hereinafter the "Service Provision Period"), the Company shall naturally acquire the Allotted Shares without consideration unless there is a reason deemed justifiable by the Board of Directors of the Company.
- (3) The Company shall lift the Transfer Restriction of all the Allotted Shares upon the expiration of the Transfer Restriction Period, provided that the Eligible Director has continuously held the position of Director of the Company or other position determined by the Board of Directors of the Company during the Service Provision Period. However, if the Eligible Director forfeits any of the positions specified in (1) above before the expiration of the Service Provision Period, the number of the Allotted Shares and the timing for which the Transfer Restriction shall be lifted shall be reasonably adjusted as necessary.
- (4) The Company shall naturally acquire without consideration any of the Allotted Shares for which the Transfer Restriction has not been lifted pursuant to the provisions of (3) above at the time of the expiration of the Transfer Restriction Period.
- (5) In the event that a merger agreement under which the Company becomes a dissolving company, a share

exchange agreement or share transfer plan under which the Company becomes a wholly-owned subsidiary, or other matters relating to organizational restructuring, etc., are approved by the General Shareholders Meeting of the Company (or the Board Directors of the Company in cases where approval by the General Shareholders Meeting of the Company is not required for the organizational restructuring, etc.) during the Transfer Restriction Period, the Company shall, by a resolution of its Board of Directors, lift the Transfer Restriction of a reasonably determined number of the Allocated Shares prior to the effective date of such organizational restructuring, etc.

- (6) In the case stipulated in (5) above, the Company shall naturally acquire without consideration the Allotted Shares for which the Transfer Restriction has not yet been lifted as of the time immediately after the lifting of the Transfer Restriction in accordance with the provisions of (5) above.
- (7) The Allotment Agreement shall include the methods of indicating intention and notification under the Allotment Agreement, the procedures to revise the Allotment Agreement, and any other matters to be determined by the Board of Directors of the Company.

The Company defined the policy for determination of remuneration, etc., for Directors at the Board of Directors held on February 22, 2021, and the summary is posted on page 40 of the Business Report in the Japanese version of this document. If this proposal is approved, the Company plans to revise the policy and the contents will be as described in [Reference (2)]. As the above, the amount to be paid for the restricted stock shall be an amount to the extent not particularly favorable and thus the extent of the dilution with regards to voting rights of issued shares is immaterial. Therefore, the Company believes that the contents of this proposal are appropriate.

[Reference (1)]

The Company plans to implement the system to grant restricted stock to Executive Officers who are not concurrently Directors of the Company on condition that the proposal is approved at this General Shareholders Meeting, as same as this proposal.

Overview of revision of policies for determining the amounts of the individual Directors' remuneration, etc.

1. Basic Policy

The basic policy of the Company's remuneration system for Directors is to ensure that it functions sufficiently as an incentive for the sustainable enhancement of corporate value and that it is at an appropriate level based on the responsibilities of each position when remuneration of each Director is determined. Specifically, the remuneration of Executive Directors consists of monetary basic remuneration and performance-linked remuneration, as well as non-monetary remuneration provided by shares. Outside Directors, who are responsible for supervisory functions, are paid only the basic remuneration in consideration of their duties.

2. Policy for determining the amount of the individual remuneration, etc., of the basic remuneration (including the policies regarding the period of providing the remuneration, etc., and the decision of conditions)

Basic remuneration for Directors shall be a monthly fixed amount of money. The amount of Basic remuneration for Executive Directors shall be determined taking into consideration the comprehensive evaluation of Directors made by the Officers Evaluation Committee based on the standard amount of remuneration for each position determined by consideration of other companies' standard, our business performance, employee's salary range, etc. The amount of remuneration for Outside Directors shall be determined considering other companies' standard, etc.

3. Details of the performance indicators related to performance-linked remuneration, etc., and policy of determining the amount and calculation method of the number for this performance-linked remuneration (including the policies regarding the period of providing the remuneration, etc., and the decision of conditions)

Performance-linked remuneration for Executive Directors shall be deemed as remuneration for the responsibility of the result of the performance for each fiscal year that the management team has accomplished as a whole, as each Director will receive monetary remuneration that reflects the

performance indicators (KPI) of a single fiscal year. The officers' bonuses will be paid at a certain period each year by the amount calculated according to the amount of Ordinary income in the Consolidated Statements of Income and Comprehensive Income for each fiscal year. The Board of Directors approves performance-linked remuneration calculation method based on the review by the Remuneration Advisory Committee.

4. Details of the non-monetary remuneration and policy of determining the amount and number for this non-monetary remuneration (including the policies regarding the period of providing the remuneration, etc., and the decision of conditions)

The purpose of non-monetary remuneration for Executive Directors is to grant an incentive for the sustainable enhancement of corporate value in the medium- to long-term, and this remuneration shall be paid at a certain period each year in principle, within the scope approved by the General Shareholders Meeting. Non-monetary remuneration shall be paid in a fixed amount or number for each position of Executive Directors, and the amount or number shall be decided every year by the Remuneration Advisory Committee in consideration of other companies' standard, our business performance, stock price levels, etc., and based on the report from the Committee.

5. Policy for determining the ratio of the basic remuneration and performance-linked remuneration amounts against the individual remuneration amount of Directors

In determining the ratio of remuneration for Executive Directors by type, the Remuneration Advisory Committee reviews the ratio of basic monetary remuneration, performance-linked remuneration, and non-monetary remuneration, referring to the values in the table below, and also considering the level of remuneration based on the benchmarks of companies in the same scale of business, related industries and business categories as the Company. The Board of Directors shall approve the individual remuneration of Directors taking into consideration the report of the Remuneration Advisory Committee.

Position	Basic remuneration	Performance-linked remuneration (upper limit)	Non-monetary remuneration
Director and Chairman/Director and President	8	6	2
Director and Vice Chairman	8	6	2
Director and Executive Vice President	9	7	2
Director and Senior Managing Executive Officer	9	8	2
Director and Managing Executive Officer	10	10	2
Director and Executive Officer	14	14	2

*The above table presents the approximate ratio of individual remuneration for directors of each position, and does not present the ratio of remuneration among directors in different positions.

6. Matters determining details of the individual remuneration of Directors.

With regard to details of the individual remuneration of Directors, with an emphasis on their attitude toward medium- and long-term issues aimed at sustainable growth and the results of their efforts, the Officers Evaluation Committee chaired by the President performs a comprehensive evaluation of each officer based on an assessment of the level of commitment from each officer and a peer review process by all directors and executive officers. The results of the evaluation provided by the Officers Evaluation Committee are used by the Remuneration Advisory Committee, whose majority of the members are outside directors and outside corporate auditors, to draft and submit a regular salary plan as basic remuneration to the Board of Directors to approve it. In terms of the officers' bonuses, it shall be determined based on the calculation method of performance-linked remuneration described in 3. above. In terms of non-monetary remuneration, it shall be determined based on the method of determining the number of each position or the number as described in 4. above, respectively.

Proposal No. 5: Revisions to Remuneration for Corporate Auditors

The amount of remuneration for Corporate Auditors of the Company was approved at the 62nd Ordinary General Shareholders Meeting held on June 26, 2009, at an amount not exceeding 80 million yen per year. As our business has expanded, the duties of Corporate Auditors who audit the execution of duties by Directors have also expanded. Furthermore, as the Company enhances its corporate governance, the roles expected of Corporate Auditors are becoming more complex and essential, such as Corporate Auditors stating appropriate and detailed opinions at meetings of the Board of Directors and performing audit functions proactively. In light of these circumstances and the change of environment around the Company, the Company proposes to revise the upper limit of remuneration for Corporate Auditors to within 120 million yen per year. Currently, there are five (5) Corporate Auditors (including three (3) Outside Corporate Auditors), and if Proposal No. 3 is approved as originally proposed, the number of the Eligible Corporate Auditors will be five (5) (including three (3) Outside Corporate Auditors).
