### (2) Reason for revision of the full-year earnings forecast

In the fiscal year ending March 31 2024, consolidated net sales were forecast to decline, mainly due to worse than expected cutbacks in investment by customers and prolonged inventory adjustments in the Communications Solutions business. As a result, profit and loss at each stage were expected to fall below the previous forecast.

For the reasons stated above, the Company has revised its full-year earnings forecast announced on May 11, 2023.
