- ✓ Carrying out various initiatives based on the three basic policies of "customer-oriented management," "promotion of DX," and "group-wide management"
- ✓ Net sales achieved the target level, and operating income was about 70% of the target.

Business Environment Surrounding Our Group (FY2/25-FY2/31)

Demand in our Group business domains is expected to be firm, but the number of players is expected to decline due to labor shortages and other factors.

Business Environment

- ✓ **Domestic building management market (approx. 4.5 trillion yen) expanding moderately**
- ✓ Risks associated with urbanization in major metropolitan areas, particularly the Tokyo area (Increasing risks of natural disasters, aging infrastructure, etc.) emerge
- ✓ Market size of the construction industry (over 60 trillion yen) remained flat.
Percentage of renovations, maintenance, and repairs increased due to aging countermeasures and environmental measures.
- ✓ **Outsourcing needs for non-core businesses are expected to expand** due to labor shortages.
- ✓ In the facilities management industry, there is a growing shortage of manpower, a problem with finding successors, and rising labor costs, **and it is expected that there will be an increase in the number of businesses that are forced to downsize or close, and a rise in the momentum for industry reorganization.**

Positioning of the Medium-Term Management Plan (FY2/25-FY2/27)

During the new 3-year period, we will reform our business model for future growth.
